

Concrete Hopper

Concrete Hoppers - The self-dumping hopper attachment could automatically trigger to both dump and release as soon as the bumper release touches the side of a dumpster. Once unloading is completed, the hopper is able to go back to original upright and locked position. This piece of equipment is even accessible along with a cable which enables operation from the seat of the forklift to be able to have the choice of manually unloading the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This particular product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
